

# UP16K-100W-QED-D0

Thermal detector for laser power measurement up to 100 W.

## PRODUCT FAMILY KEY FEATURES

## MODULAR CONCEPT

Increase the power capability of your detector: 4 different cooling modules

## HIGH PEAK POWER DIFFUSING ABSORBER

Perfect for pulsed beams with high energy density

## COMPACT DESIGN

36 mm thick

## HIGH AVERAGE POWER

Measure up to 100 W of continuous power

#### SMART INTERFACE

Containing all the calibration data

#### AWARD-WINNING TECHNOLOGY

The UP-QED laser power detectors for extremely high density lasers were recognized among the most innovative photonics technologies for the 2021 Laser Focus World Innovators Awards, as a Gold honoree.

## **COMPATIBLE STAND**

STAND-S-233

## **SPECIFICATIONS**

## **MEASUREMENT CAPABILITIES**

| Maximum average power (continuous) <sup>1</sup> | 100 W          |
|-------------------------------------------------|----------------|
| Maximum average power (1 minute) <sup>2</sup>   | 100 W          |
| Noise equivalent power <sup>3</sup>             | 4 mW           |
| Spectral range <sup>4</sup>                     | 0.266 - 2.5 μm |
| Typical rise time <sup>5</sup>                  | 2.5 s          |
| Power calibration uncertainty <sup>6</sup>      | ±2.5 %         |
| Repeatability                                   | ±0.5 %         |

- 1. Minimum cooling flow 0.5 liters/min, water temperature  $\leq$  22°C, 1/8 NPT compression fittings for 1/4 inch semi-rigid tube. Contact Gentec-EO for clean deionized water cooling module option.
- 22°C, 1/8 NPT compression fittings for 1/4 inch semi-rigid tube. Contact Gentec-EO for clean deionized water cooling module option.
- 3. Nominal value, actual value depends on electrical noise in the measurement system.
- 4. For the calibrated spectral range, see the user manual.
- 5. With anticipation.
- 6. Including linearity with power.

## MEASUREMENT CAPABILITIES (ENERGY MODE)

| MERIOREMENT OF TRIBLETTES (ENERGY MODE)     |        |
|---------------------------------------------|--------|
| Maximum measurable energy <sup>1</sup>      | 500 J  |
| Noise equivalent energy <sup>2</sup>        | 0.06 J |
| Minimum repetition period                   | 4 s    |
| Maximum pulse width                         | 61 ms  |
| Energy calibration uncertainty <sup>3</sup> | ±5 %   |

1. For 360  $\mu s$  pulses. Higher pulse energy possible for long pulses (ms), less for short pulses (ns).

- $2.\ Nominal\ value, actual\ value\ depends\ on\ electrical\ noise\ in\ the\ measurement\ system.$
- 3. When single-shot energy calibration is purchased

## DAMAGE THRESHOLDS

| DAMAGE TIRESHOLDS                                                                                                                            |                    |
|----------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| Maximum average power density <sup>1</sup>                                                                                                   | 100 kW/cm²         |
| Maximum energy density <sup>2</sup>                                                                                                          | 8 J/cm²            |
| 1. At 1064 nm, 10 W CW. May vary with wavelength and average power.<br>2. At 1064 nm, 7 ns, 10 Hz. May vary with wavelength and pulse width. |                    |
| PHYSICAL CHARACTERISTICS                                                                                                                     |                    |
| Cooling                                                                                                                                      | Water              |
| Aperture diameter                                                                                                                            | 16 mm              |
| Absorber                                                                                                                                     | QED                |
| Dimensions                                                                                                                                   | 50H x 50W x 38D mm |
| Weight                                                                                                                                       | 0.24 kg            |
| ORDERING INFORMATION                                                                                                                         |                    |
| UP16K-100W-QED-D0                                                                                                                            | 203879             |
| UP16K-100W-QED-BLU-D0                                                                                                                        | TBD                |
| UP16K-100W-QED-IDR-D0                                                                                                                        | 205201             |
| UP16K-100W-QED-INT-D0                                                                                                                        | 205194             |
